

SP and CS1000 are safe, reliable and high-performance single pole connectors for applications requiring high electrical power with a high capacity to absorb frequent overcurrents up to 10*I_n.

SP and CS1000 are robust connectors with a long service life without replacement of wearing parts.

SP and CS1000 comply with the following regulations(a) :
European Low Voltage Directive and RoHS (affixing of CE marking), European REACH Regulation.

SP is certified by the following certification bodies:
CSA (Canada), Bureau Veritas Marine, TR CU (Russia), Mil-S-901D (Military), Intertek-RETIE (Colombia).

CS1000 is certified by the following certification bodies:
UL (USA), CSA (Canada), TR CU (Russia), Intertek-RETIE (Colombia).

SP is equipped with an electromechanical mechanism connected to power supply breaking devices located upstream in the electrical installation to be controlled with 2 pilot wires.

General information		CS1000	SP
(b)	I _n	500 A	800 A
	U _{max} (V AC/V DC)	1000/1500	1000/1500
(c)	Frequency max. (Hz)	500 Hz	500 Hz
(d)	Number of contacts	1	1
(e)	Number of keying positions	1 2 3 N E	1 2 3 N E
	Connection (min - max): mm ²		
	Flexible conductors (Cu): main contacts	50 - 300	50 - 630
	Rigid/stranded conductors (Cu): main contacts	70 - 400	70 - 630
	Tightening torque - main contacts (Nm)	40 N.m	40 N.m
	Wiring lugs	To crimp	
	I _{cc} : conditional short circuit current (kA)	23 kA/250 ms	
Pilots contacts			
	I _n		10 A
	U _{max}		250 V AC
(f)	Number of pilots contacts		1
	Connection (min - max): mm ²		
	Flexible wiring		1.5
	Tightening torque (Nm)		Pre-wired
Number of operations			
	Mechanical	2000	2000
Thermal features			
	Temperature of use mini/maxi (°C)	-40/+60°C	-40/+60°C
	Storage temperature mini/max: (°C)	-40/+80 °C	-40/+80 °C
	Maximal temperature rise (Kmax)	56 K	49 K
	Time constant (to reach 63 % of Kmax)	30 mn	38 mn
